Subject: Canadian radium & Uranium Site | Removal Assessment Sampling Report

Dan,

Attached please find the Removal Assessment Sampling Report which summarizes the radon and soil sampling activities conducted by EPA with the support of START V at an area of concern (AOC) located in proximity to the Canadian Radium and Uranium Site. The sampling event was performed at the AOC on September 8 through 11, 2019.

If you have any questions or comments please let me know.

Thanks,

Ben Nwosu
